

The Power of Evaluation: Understanding organizational impact, guiding service delivery and supporting policy development

Presented by
Irene Hoffart, Synergy Research Group

Learning Objectives

- Learn about the value of evaluation
- Understand the basic components of building an evaluation and measurement framework
- Identify simple and appropriate evaluation methods and tools to measure results
- Understand how evaluation can inform and support organization's leadership, mission, vision and goals

Value of Evaluation

- Ensure service effectiveness
- Identify the most valuable and efficient use of resources
- Be accountable to funders, partners and the community
- Mobilize resources (build credibility and visibility)
- Advocate on behalf of the clients
- Support and inform Strategic and Business plans

Basic Components of an Evaluation

- Inputs
 - what is invested?
- Outputs
 - what are we doing?
- Outcomes
 - what changes will clients experience?

Theory of Change

IF

- Resources are available &
- Participants receive needed services

Then

- Participants experience positive change
- Systems change occurs
- Community benefits

Create a "logic model"

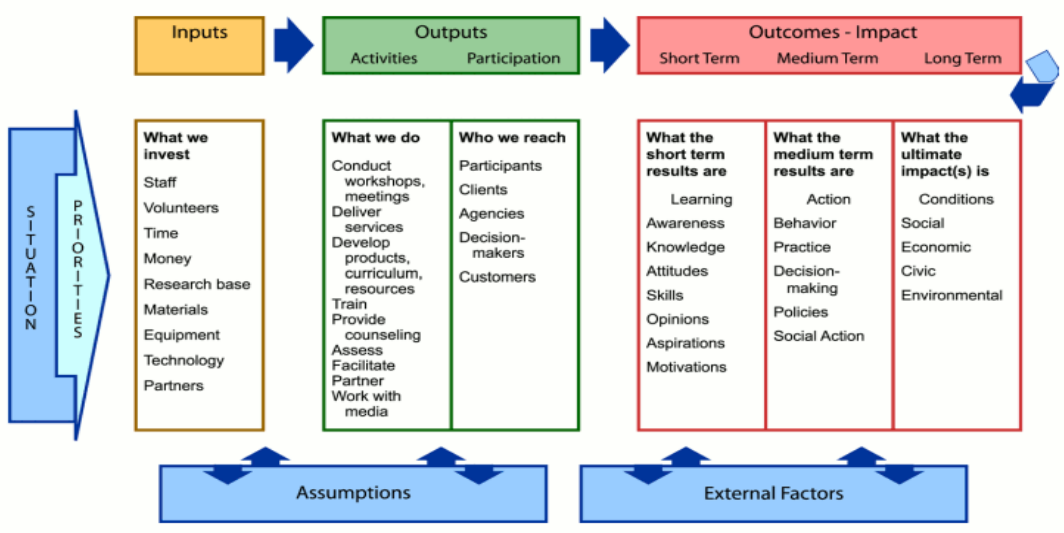

At the logic model repair shop ...

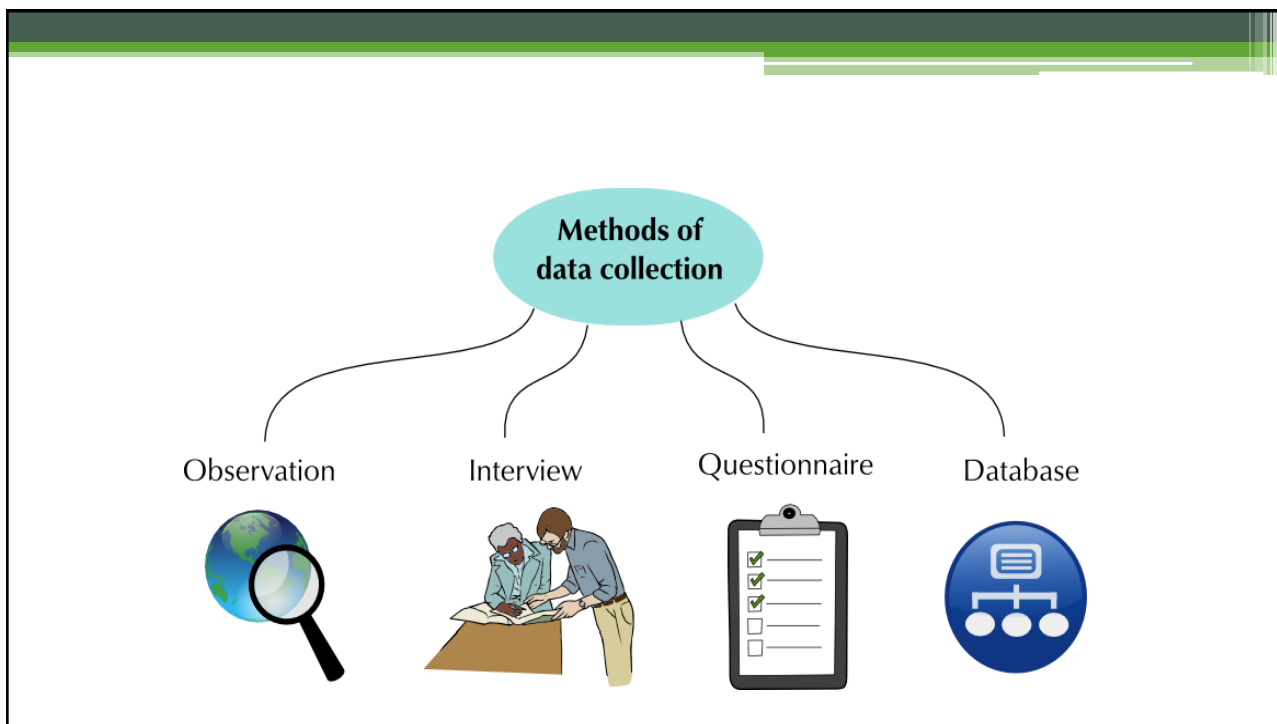

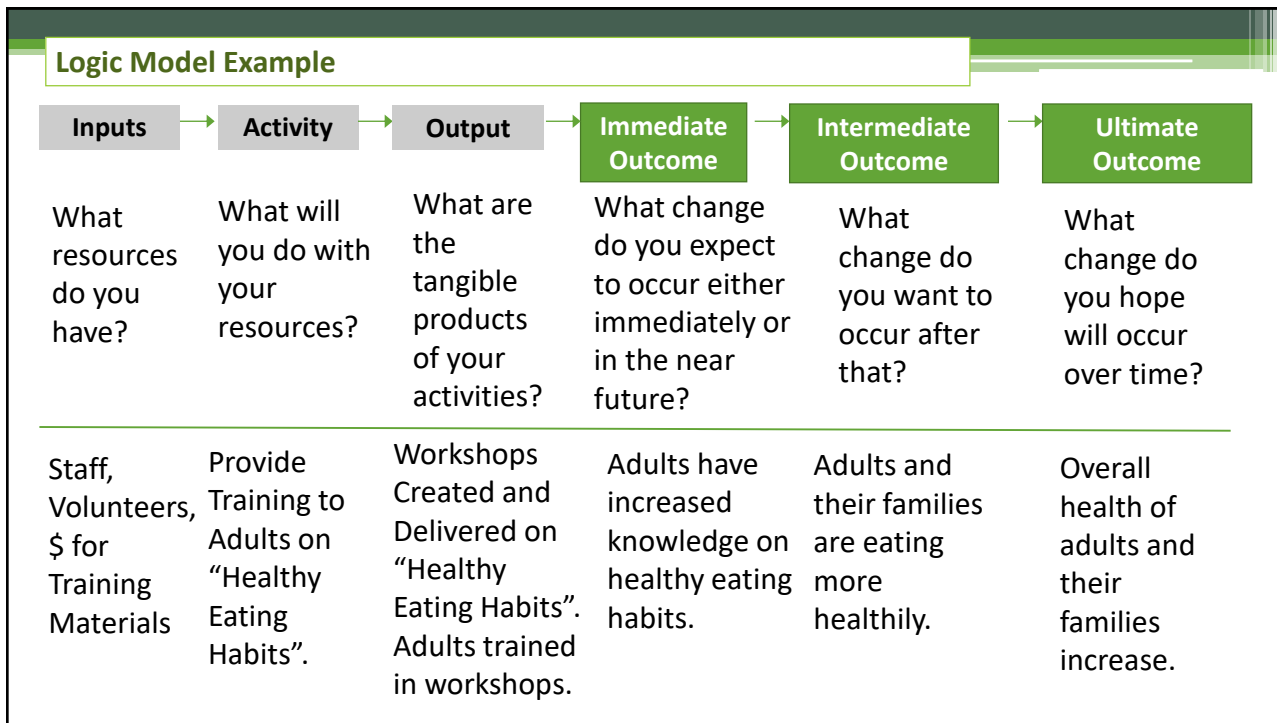

So, I'm guessing this is for a comprehensive program-level intervention

Logic Model

Measurement Plan

	Indicators	Tools	Methods	Reporting
Outputs	#/% of participants registered in program	Intake	Intake worker completes in the first month of service	Entered into database; analyzed every 3 month;
Outcomes:	#/% of participants reporting increased knowledge	Participant survey	Distributed by facilitator at the end of training session	Summarized in annual reports

Continuous Learning

Integrating Evaluation into Agency Decision Making

- Training and learning supports
- Information systems and information sharing agreements
- Ongoing review (management and staff committees)
- Development and testing of promising practices
- Dashboards
- Knowledge dissemination strategies
